

Database for important product information & current target values

Dear customers,

a product-specific IFU, including current target values, safety data sheets (MSDS), data sheets instead of MSDS, and CoAs are available for download as PDF files directly from our database:

https://dokumente.biomed.de/

You will find the access data on your delivery note.

FTo participate in the target value evaluation, please send us your data in exported form (e.g., in XLS or CSV format). The table structure should contain the following data in the following order:

#	Parameter	Level	Messdatum	Messwert	Einheit	LOT BIOMED Produkt	Hersteller Gerät	Gerät	Messmethode	Name Labor / Klinik	Standort des Labors / Klinik
1											
2											
3											
4											

- Serial number
- Parameter
- Level
- Measurement date
- Measurement value
- Unit
- LOT BIOMED product
- Manufacturer Device
- Device
- Measurement method
- Name of laboratory/clinic
- Location of laboratory/clinic

We will be happy to send you an Excel file on request, in which you can fill in your values electronically and email it back to us in Excel file format. If required, simply send us an email to info@biomed.de.

Please note that we can no longer take into consideration any non-machine-readable documents sent to us, such as faxes, photos, screenshots, handwritten forms, PDF files, etc., when determining target values.

Please do not hesitate to contact us if you have any questions.

Thank you very much and kind regards
Yours BIOMED-Team
